GREEKS COMPLETELY SMASH RESISTANCE OF THE NATIONALISTS

(By Associated Press)
ATHENS, July 27.—Mustapha Kemal Pasha, head of the Turkish National Government, has telegraphed a cable asking the central government to intervene with the Greek official to obtain a general armistice. The Greek official says he will do his best to obtain a general armistice from the Greek-Turkish leaders at Constantinople. The Exchange Telegraph

IRISH BALKING
AT SETTLEMENT
TERMS OFFERED

(By Associated Press)
DUBLIN, July 27.—The Ulster and Sinn Féin forces have not yet found a basis for a proposed conference with the British "representatives" on the Irish question in London but were continuing their search for a common ground on which the contending parties can meet. It was stated to well-informed authorities.

A full meeting of the Irish Delegation and the British "representatives" was held yesterday afternoon. The British "representatives" proposed but reached no decision. It is understood they are awaiting communication from Ulster.

BALLIT PLANS
TO REOPEN THE
BUCKEYE MINE

(By Associated Press)
MYSTERY MAN
STORY IS BUNK
IN TRUE SENSE

Lewis Billings, mining engineer, has been in Tonopah for the past week arranging matters for reopening the Buckeye mine, according to Mr. Billings, departed for San Francisco this morning, and will be gone for about three weeks. During his absence he will make a trip to New York, and upon his return expects to have the mine in shape to start actual re-opening of the property.

It is stated that arrangements have been made whereby ample money will be available for complete development of the Buckeye mine. A working fund of \$100,000 is to be sent to Tonopah to finance the mine and extend its development as soon as Mr. Billings returns from the east.

A few months ago the Buckeye property was examined by David H. Smith, one of the most prominent mining men of New York, and his report was not favorable to the project in particular, and to Tonopah conditions in general, that the western stockholders have asked Mr. Billings to complete the development.

ELEVEN INJURED IN
WATER FRONT RIOT

(Associated Press)
SAN FRANCISCO, Cal., July 27.—Eleven men were injured in a riot on the waterfront today when the union crew of the steamship Frank B. Shattuck was attacked by a number of ship crew strikebreakers. The riot was of brief duration.

TWO MEN KILLED IN
GASOLINE EXPLOSION

(Associated Press)
MARTINEZ, Calif., July 27.—William N. Johnson and Thomas Tarantino were instantly killed in an explosion of a gasoline still at the plant of the Shell Oil company today.

So long as no one is displeased with what we say or do we feel that we are accomplishing little.

RICKARD PAYS
FINE OF \$1000
IN N. Y. COURT

(By Associated Press)
NEW YORK, July 27.—Tox Rickard, boxing promoter, and Frederick G. Quimby, motion picture exhibitor, pleaded guilty before Federal Judge Sherman in charges of violating the antitrust commerce law through the transportation across the state lines from New Jersey of the Dempsey-Carpenter fight pictures. They were fined \$1000 each.

JAPS WILL
PROTEST
AFFAIR AT
TURLOCK

(By Associated Press)
TOKIO, July 27.—Nich-Nichi says the cabinet has decided the government should send a protest to the United States government against the deportation of Japanese workers from the harvest fields of Turlock, California. The foreign office said it had no information concerning the reported decision of the government.

The ground on which the protest is to be made, according to Nichi-Nichi, was that the deportations constituted an encroachment on the rights of Japanese who were living in obedience to the laws of the United States.

MUCH ACTIVITY
BEING SHOWN
AT BELLEHELEN

Albert Kuriss, who has been at Bellehelein for the last month looking after mining property in which he and John F. Stanton and others are interested, is spending a couple of days in Tonopah. Mr. Kuriss says that since the time limit for the performance of the assessment work for 1920 expired on June 30, there has been much activity at Bellehelein and surrounding districts, and every indication points to a season of great activity.

"I heard of several important finds made in and around Bellehelein," remarked Mr. Kuriss. "But those interested are inclined to be reticent regarding mine development by reason of the fact that several deals are pending that will have much to do with the future of the district, resulting they are consummated as is now anticipated."

DR. J. B. McCANN NOW
A FISH LAKE BOOSTER

Dr. and Mrs. J. B. McCann, who have been camping at Fish Lake valley for the last several days, returned to Tonopah this afternoon. Dr. McCann is a Fish Lake booster and feels confident that the Merger company is going to be the first concern to bring in a commercial well in this state. Upon the return of Dr. McCann and his wife, they were accompanied by Mrs. Charles W. Taylor, president of the Fish Lake Merger Oil company, who is spending a great deal of her time with her husband at the seat of all operations.

TREASURE HILL
DISCOVERY IS
SHOWING WELL

The discovery made several days ago at Silverton on the Treasure Hill property, recently taken over by Harry C. Stander and associates, is growing bigger and richer as development is carried forward. The shaft, which has now attained a depth of 50 feet, has followed a solid body of high-grade ore for nearly 15 feet, and hornsilver and black metal are very much in evidence, assays showing values running upwards of 600 ounces silver a ton.

While this shaft was started with a view to keeping away from the vein matter proper, it penetrated a vein of ore at a depth of 25 feet which came entirely as a surprise. It is now announced that sinking will be continued to a depth of 150 feet before ground floor is started to the northwest, and within a comparatively short distance two veins should be intersected that show most promising values on surface. The first vein, known as the Treasure Hill, shows a width of 20 feet in surface, and should be reached within 10 feet of driving, and good results are anticipated when the objective is reached at a depth of 150 feet.

There is a great deal of activity manifest in the new camp since the discovery on the Treasure Hill property was made. At present a force of 14 men is employed on this estate, while there are several lessers at work on other parts of the property. Owners of property throughout the district are prosecuting development and in several instances highly satisfactory showings are reported. The camp is assuming goodly proportions and at present there is a general store, a restaurant and soft drink establishment in operation.

2 U. S. AVIATORS
KILLED IN PLUNGE

(By Associated Press)
COBURG, Germany, July 27.—Two American aviators, Lieutenant Carl Derby Gunther and Corporal L. G. Rogers, were killed yesterday when their airplane crashed at Weissen Thurn field, near here, and burst into flames.

The "open door" seems to be giving Japan cold feet.

FISH LAKE WELL
SHOWING SAND
OIL FORMATION

The well of the Fish Lake Merger Oil company had attained a depth last night of 350 feet, and heavy work is being made at the rate of 10 feet each day. The first water encountered in the well has been shot off by installing casing, and while there is a slight flow of water at the present depth it is not of sufficient quantity to interfere with operations.

For several days the big drill of the Standard rig has been grinding through what is known as a beach pebble formation much faster than expected and made such rapid progress that it became evident that the hole would be drilled and might relieve his suffering.

James O'Brien is survived by a widow, Mrs. John O'Brien, and by seven sons, Albert, Arthur, Otto, James and Eugene of Austin, and Dick of San Francisco and Adey of Oregon.

The remains have been shipped from Sacramento and it is presumed that the funeral will take place Friday in that town. James O'Brien, lifelong friend of the late James J. Corbett, the famous boxer, died yesterday at the age of 80. He was present at the hearings in option that he may not his last respects to an elderly man and his wife whom he had known and admired during his life.

Ford drivers declined three-tenths of one per cent in June, we are sure, though we hadn't noticed it.

HUGHES SENDS DEMAND
FOR RELEASE OF U. S.
PRISONERS IN RUSSIA

(By Associated Press)
WASHINGTON, D. C., July 27.—Formal demand for release of American prisoners in Russia has been made on the soviet authorities by Secretary Hughes. The state department was advised the communists had sent word to the Soviet representative at Berlin yesterday to consult Hughes.

The text of the communication dispatched June 25 has not been made public. It is understood, however, to be in broad substance that Americans had released before there can be any thought of better relations between the United States and Russia. The action was taken in the name of humanity and because all efforts to obtain the release of Americans, made through the National Society of the Red Cross, had failed. What course will be taken by the United States if the soviet authorities refuse or refuse to accede to the demands was not indicated.

(By Associated Press)
BIGGS, July 27.—The demand of Secretary Hughes for the release of American prisoners.

The American government is advised that definite repeated efforts of Dr. Nansen in its behalf to secure the release of American prisoners in Russia, does still go on in a most active way.

In the name of humanity the American government demands of the soviet authorities that the American prisoners be at once released. It is manifestly impossible for the American authorities to countenance measures for the relief of distress in Russia, when our citizens are detained."

FINALLY REACH
AGREEMENT ON
TAX REVISION

(By Associated Press)
WASHINGTON, D. C., July 27.—Final agreement is said to have been reached at a dinner conference last night at the White House for signing confirmation of tax revision legislation before the permanent bill is taken up by that body.

PIONEER CALIFORNIAN
COMMITTS SUICIDE

NEVADA CITY, Calif., July 27.—The body of Daniel Marsh, pioneer lumberman, was found hanging in a barn belonging to the company he controlled. He had been despondent

in the death of Jesse Daniels, aged 59 years, a resident of Smoke Tree Valley, for the last 40 years, which occurred early yesterday morning at Reno, another of those accidents on which the people of Nevada are so proud, passed to the Great Beyond.

Mr. Daniels was an honest man and belonged to that old school where a man's word is his bond. He was loved by all who had the pleasure of his acquaintance, and his disappearance a void throughout south-western Nevada that will be hard to fill.

Forty years is a long period to reside in one community yet that was the life of Jesse Daniels. For many that time he resided in Grizzly and Monitor valleys, and for those years was associated as a partner with the late Judge Greenough in the cattle and ranching business. He lived on a little ranch near Kingman canyon, his home being about one mile from that of his closest neighbor. He was a prosperous citizen and had lived an upright life and was well in all his dealings with his fellowmen.

Mr. Daniels had been ill for some time and was taken to Sacramento to receive treatment. His widow, the wife of his physician, was removed to Reno about 10 days ago, but the accident that made such immediate his recognition that he failed to rally and gradually failed until death relieved his suffering.

James O'Brien is survived by a widow, Mrs. John O'Brien, and by seven sons, Albert, Arthur, Otto, James and Eugene of Austin, and Dick of San Francisco and Adey of Oregon.

The remains have been shipped from Sacramento and it is presumed that the funeral will take place Friday in that town. James O'Brien, lifelong friend of the late James J. Corbett, the famous boxer, died yesterday at the age of 80. He was present at the hearings in option that he may not his last respects to an elderly man and his wife whom he had known and admired during his life.

Ford drivers declined three-tenths of one per cent in June, we are sure, though we hadn't noticed it.
